

AEON LABS – MOTOR CONTROLLER MICRO

(Z-Wave Micro Motor Controller)

Product Overview:

The Aeon Labs Motor Controller Micro is a low-cost Z-Wave motor driver specifically used to enable Z-Wave command and control (open/close) for existing in-wall switches. The Motor controller allows control of the motor via 2 wires and a neutral.

Product Highlights:

- Low-cost Z-Wave motor controller
- Open/Close control via Z-Wave, manual Wall Switch and/or built-in button
- Small form factor that fit in most gang boxes worldwide (52x50x27mm)
- Latest Z-Wave protocol and commands
- 3-Wire installation
- Optimized antenna range: 80+ feet tested
- Available for USA, EU and Australian markets (UL, FCC, CE, C-TICK, ROHS)

Technical Specifications:

- USA: 120V 60Hz input, 600W or 5A maximum output
- EU: 250V 50Hz input, 1250W or 5A maximum output
- AU: 240V 50Hz input, 1200W or 5A maximum output
